

## **Games for Seva**

YICG is a unique place for Indians to get together and learn more about their culture. At YICG, people learn about the Hindu culture as well as the history of India. In the classes, many misconceptions on the Hindu culture are discussed and dismissed. However, not everyone who believes in these myths regarding Hindu culture is given the opportunity to have them dispelled by attending YICG. For this reason, [Games For Seva](#) (GFS), a YICG initiative, has been created to educate the youth and others on Vedic culture. The games teach valuable lessons that can further improve the player. Some games such as [Memory Maya](#), our first game available for purchase, educates the player on salient Sanskrit words. At GFS, a community is being helped while one is being created. All the participants at GFS are brought closer together and develop bonds through their experiences.
